Diagnostics:

1. *w*-Insertion but only before [ɔ], not before [u], so ['wɔjtsizna], but [ul]. No *j*-Insertion.
2. Dentalization (mazurzenie)
č, dʒ, š, ž → ts, dz, s, z
as in *cas* 'time', *drozdze* 'yeast', *ze* 'that'
3. Nasal Decomposition: final *-q* is pronounced [ɔm] as in [tfɔjɔm] and [tɔbɔm].
