N-Placement

CV Rule

Complex Onset Rule

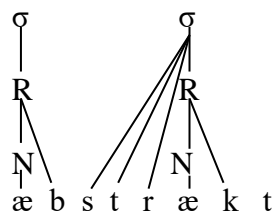

[t] goes into the onset as no SSG violation

[s] goes into the onset as *s*-Onset Suspension

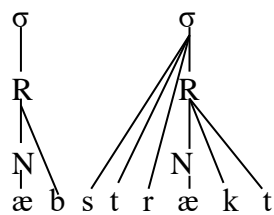

[b] is blocked from going into the onset as an SSG violation

since

[t], a stop, is already in the onset

Coda Rule: [b] and [k] go into the coda

Complex Coda Rule:

Dental Coda Suspension, so [t] goes into the coda.
